SUNDAVILLE®

633

SUPER DARK RED - sunparacore

SUNDAVILLE®

639

Classic Cream Pink - sunparapibra

FLOWER: intensive red which becomes darker with strong light.

LEAF: intensive green.

GROWTH: medium strong.

TIPS: like dark red but bigger.

Growth retardant • Growth •• Earliness •••

SUNDAVILLE®

631

Classic Red - sunmandecrim

FLOWER: bright red, it doesn't fade with stronger sun.

LEAF: little, round, deep green, bright.

GROWTH: medium strong.

TIPS: good branching and early flowering.

Growth retardant - Growth •• Earliness •••

SUNDAVILLE®

642

Classic Red Star - Sunparasujii

FLOWER: intensive red, white stripes.

LEAF: big, lengthened, deep green, bright.

GROWTH: strong, it needs a very hot climate.

TIPS: because a mutation could have a back to original variety and with cold temperatures the stripes are less strong.

Growth retardant - Growth •• Earliness •••

SUNDAVILLE®

635

Classic Pink - sunmandecripi

FLOWER: Deep pink, it does not fade with the sun, same dimensions like *Classic Red*.

LEAF: little, round, deep green, bright.
